
THE FOOLISH MONKEY
INSTRUCTIVE STORIES FROM NITI SHASTRA
iskcondesiretree.com

There was a carpenter cutting big log of wood in a forest

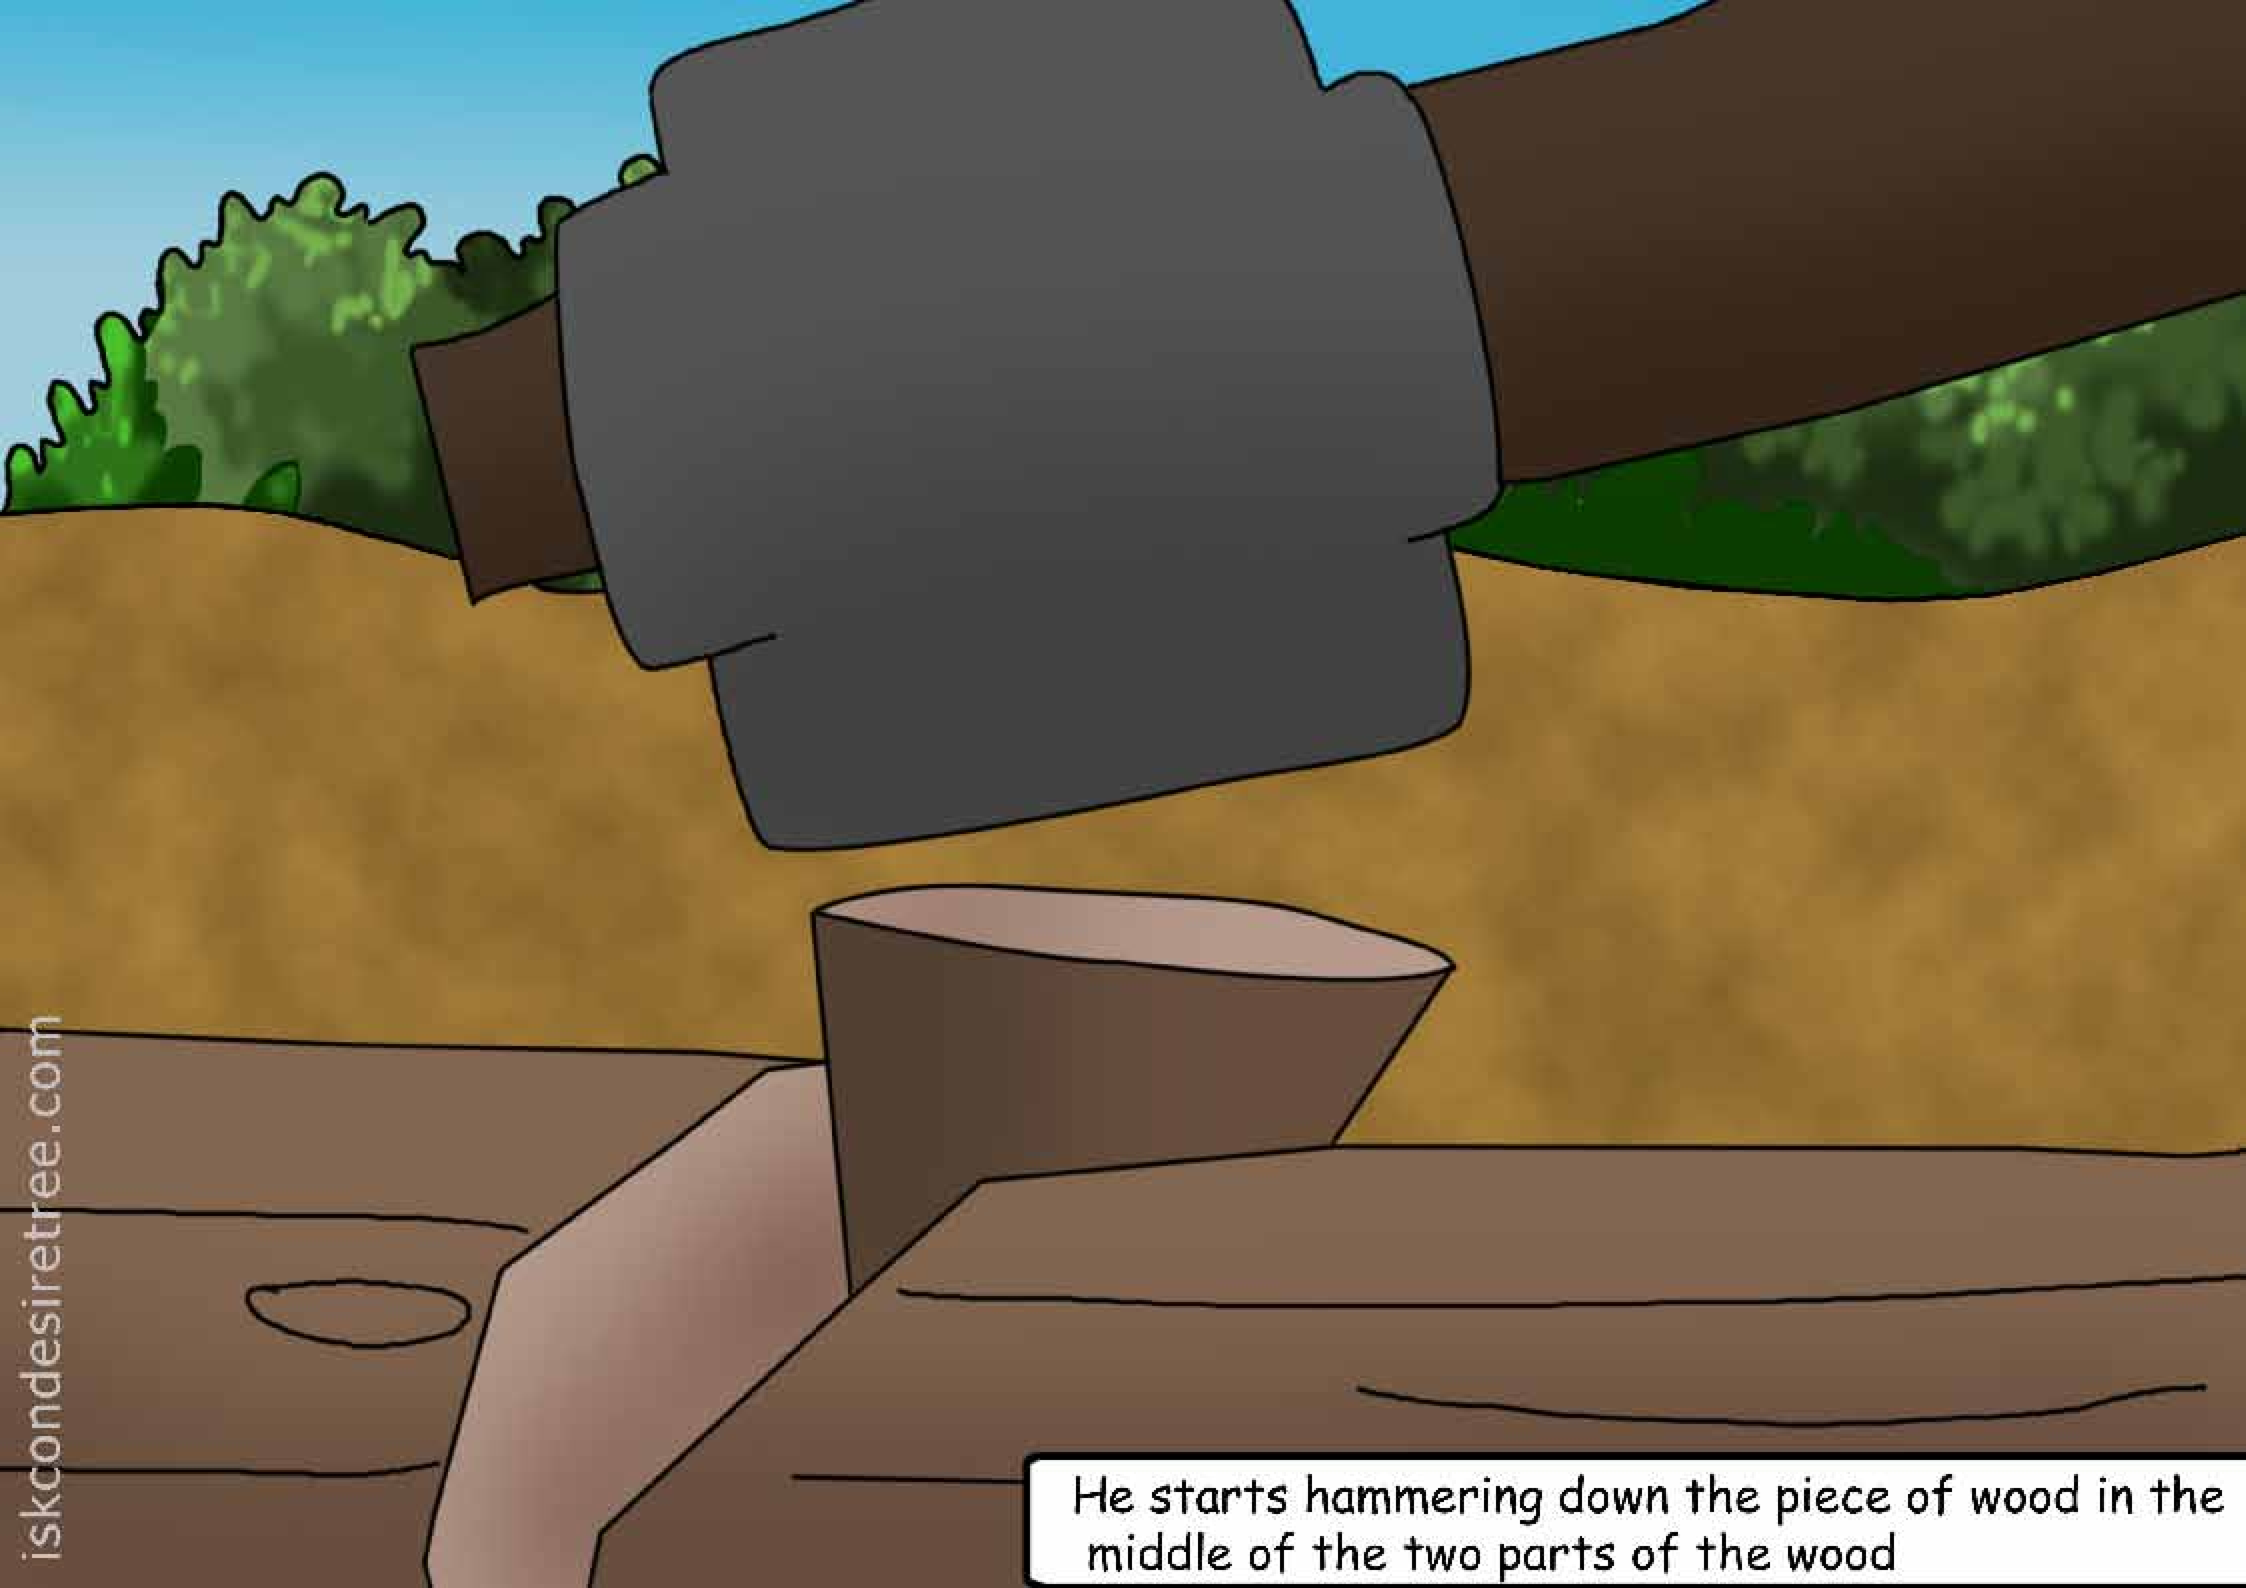

It was afternoon
I should take a break and go for lunch
iskcondesiretree.com

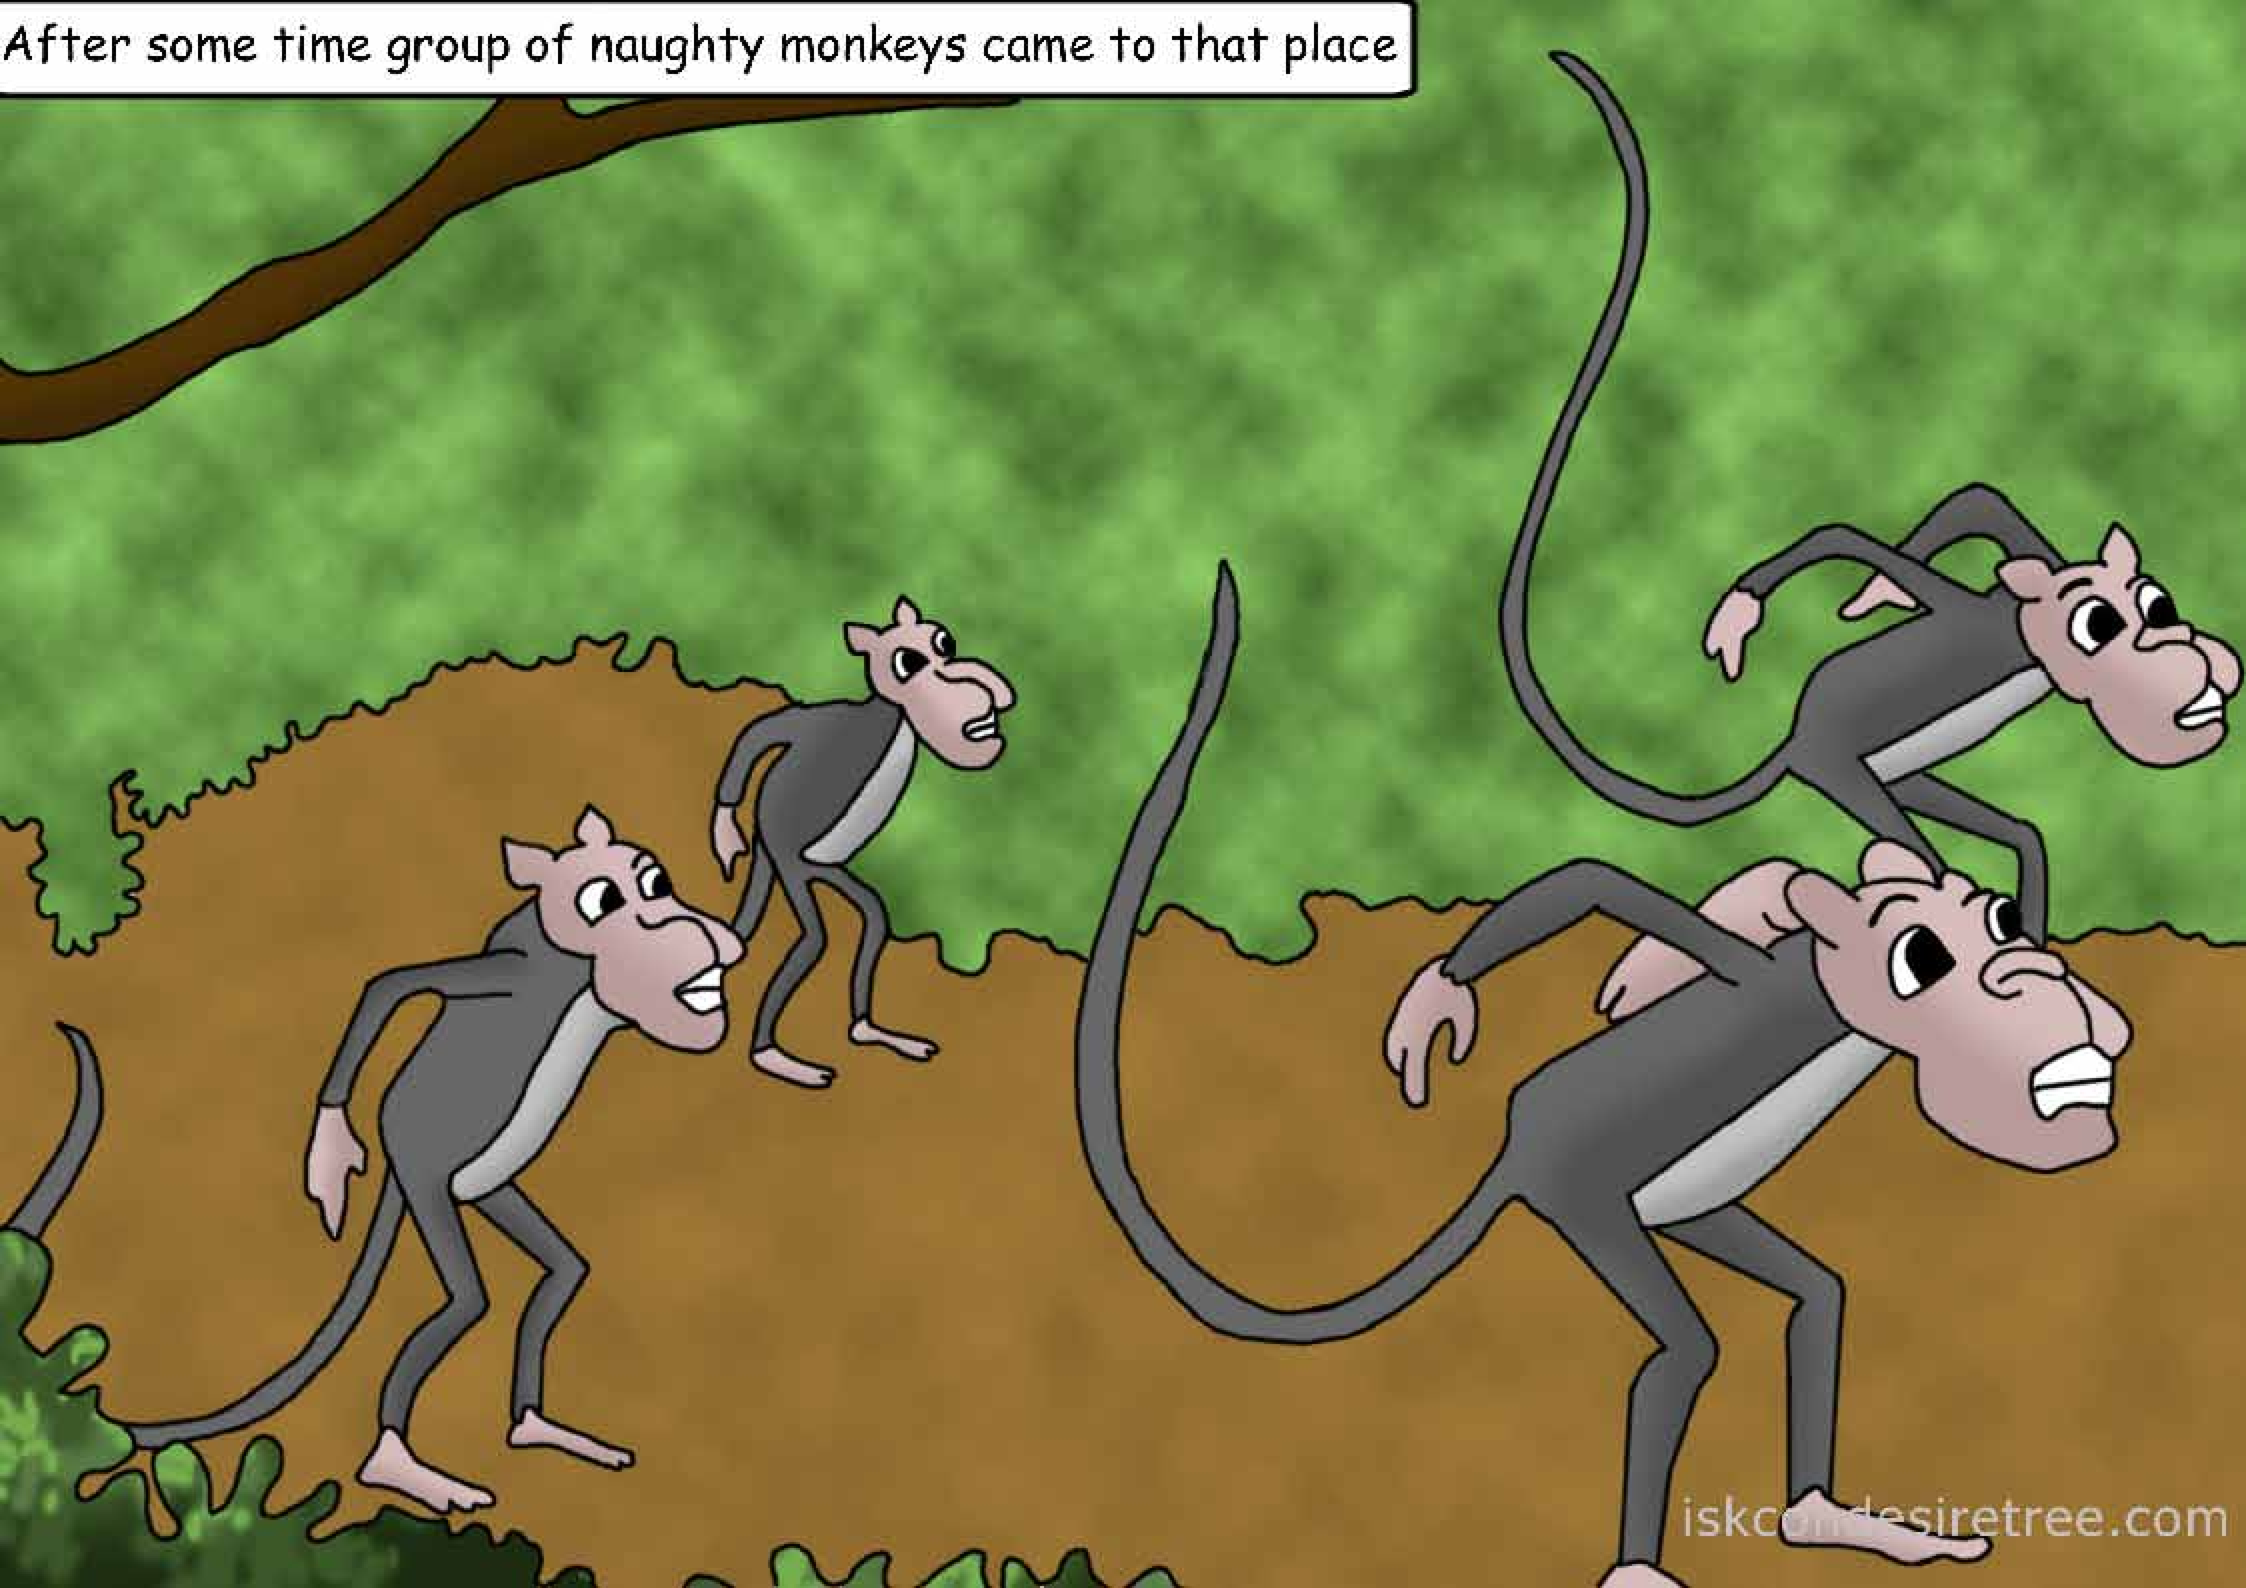

But I have not finished cutting the log of the wood
iskcondesiretree.com

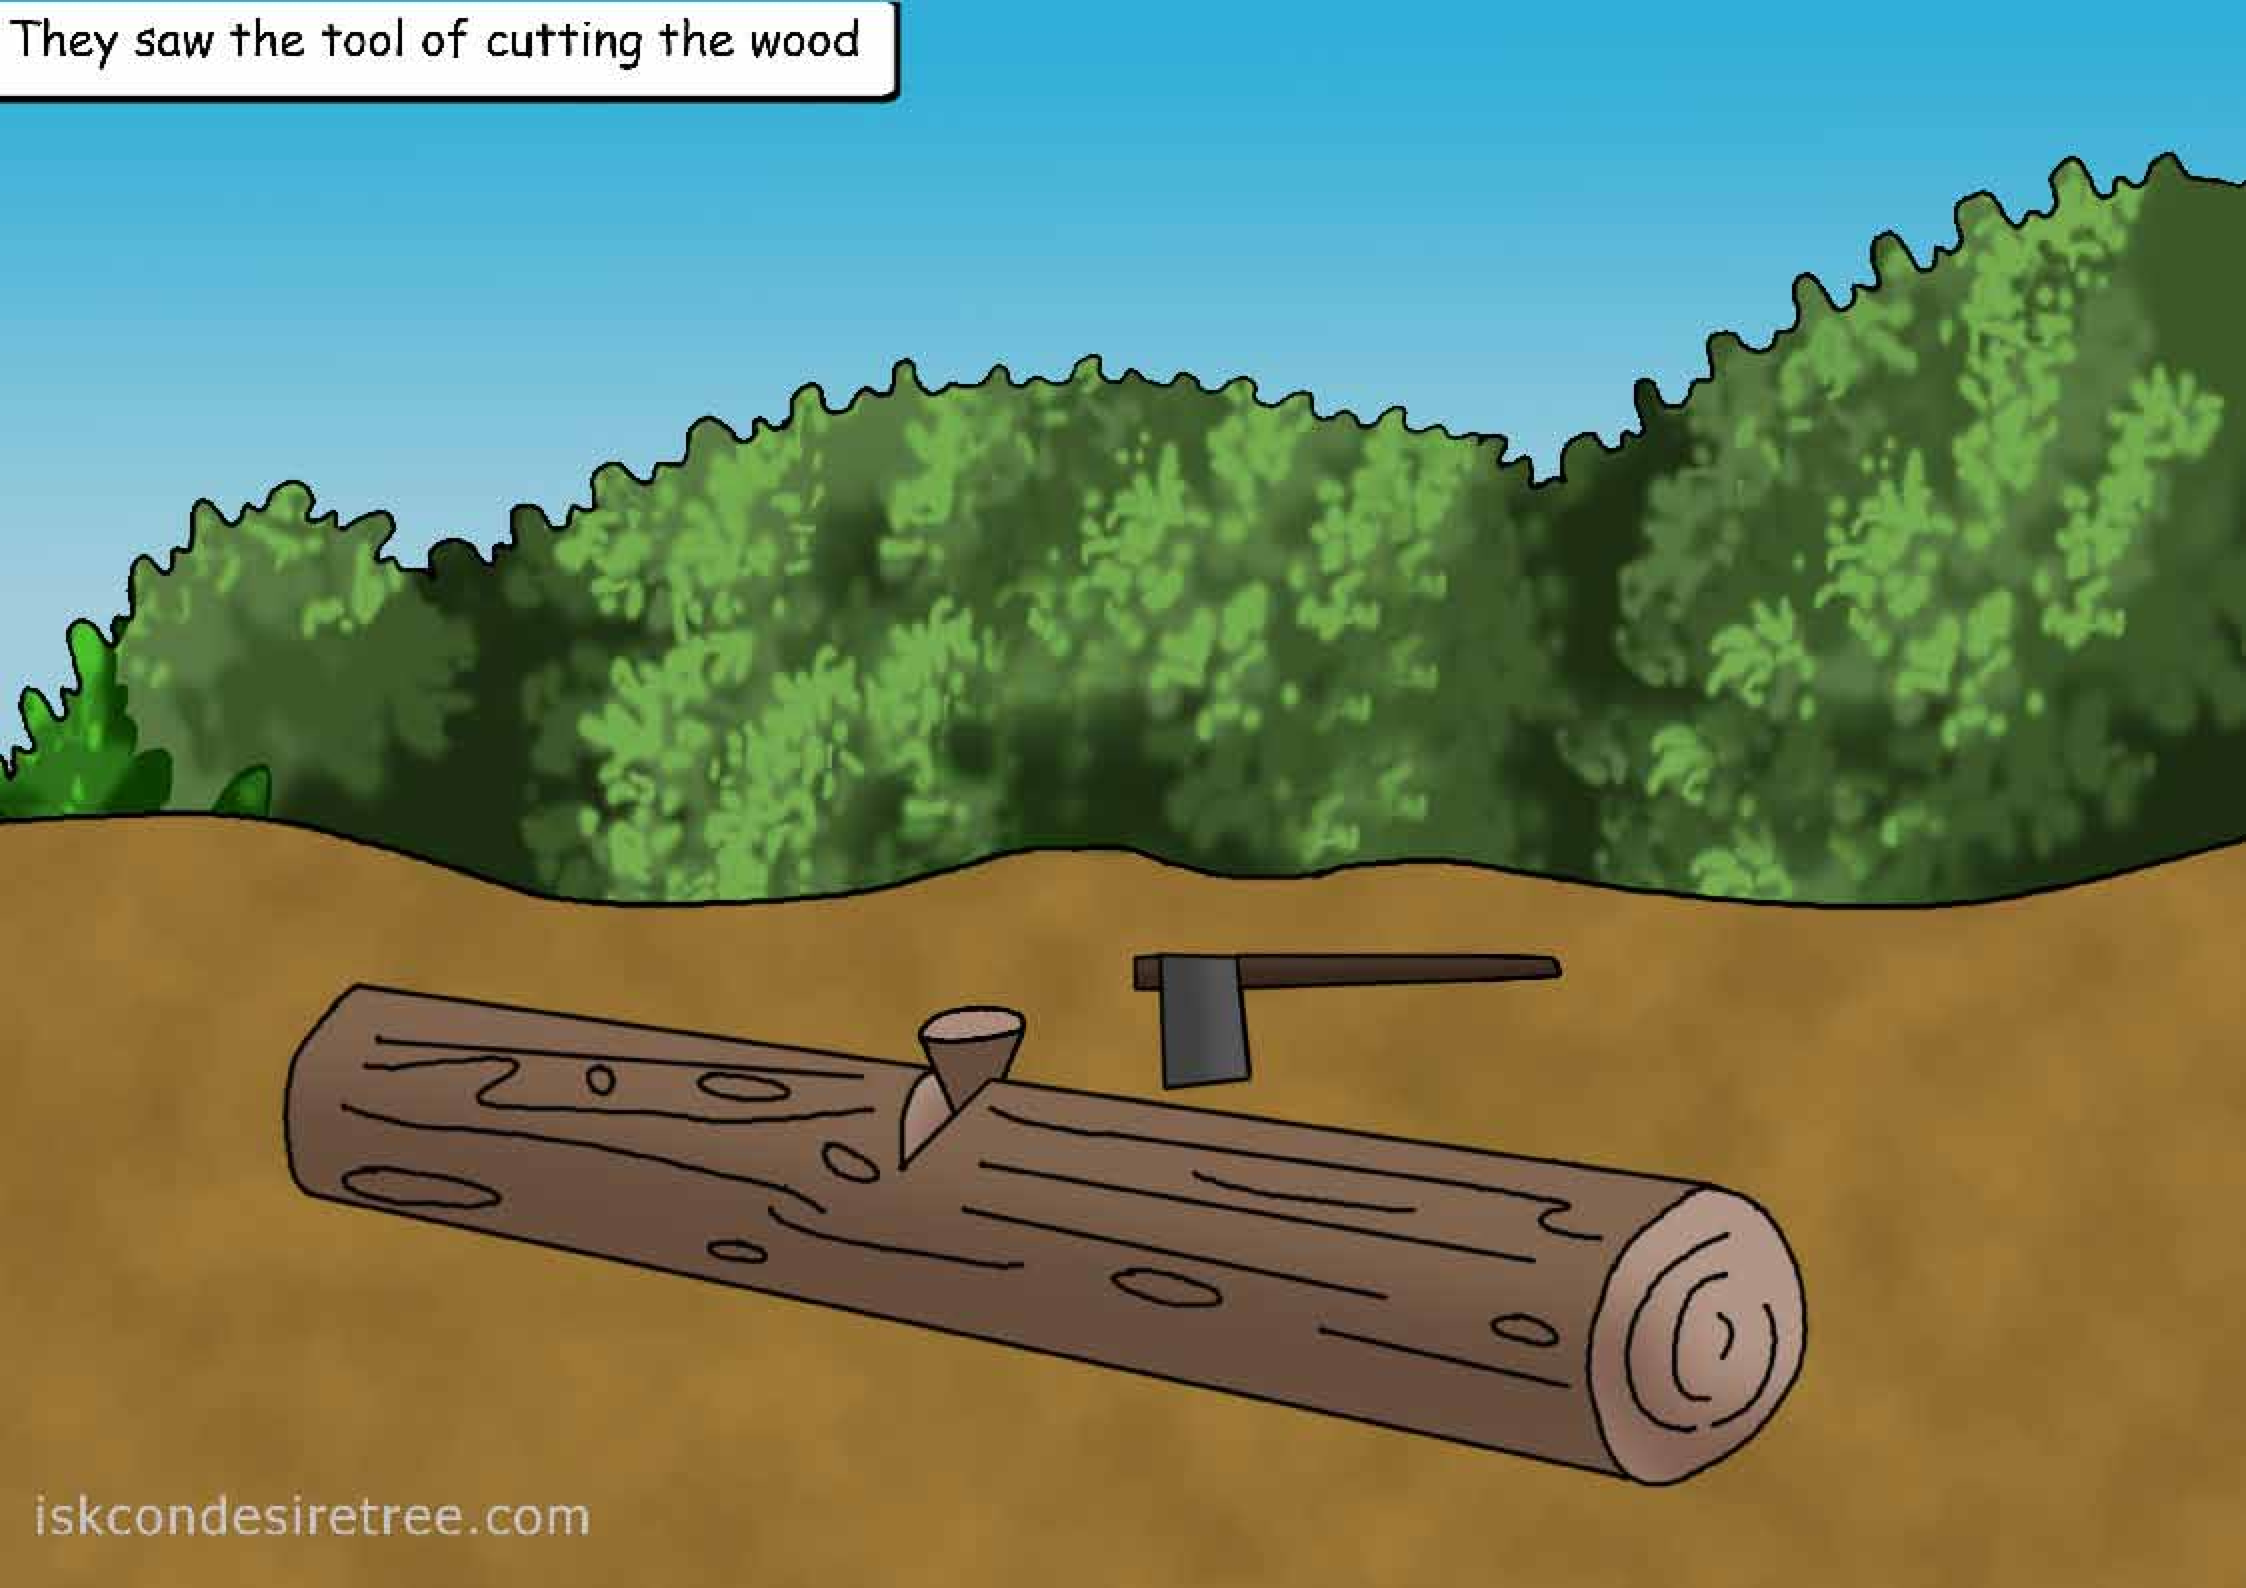

If I will leave it like this then the two portions will get joined again and I will have to work all over again
iskcondesiretree.com

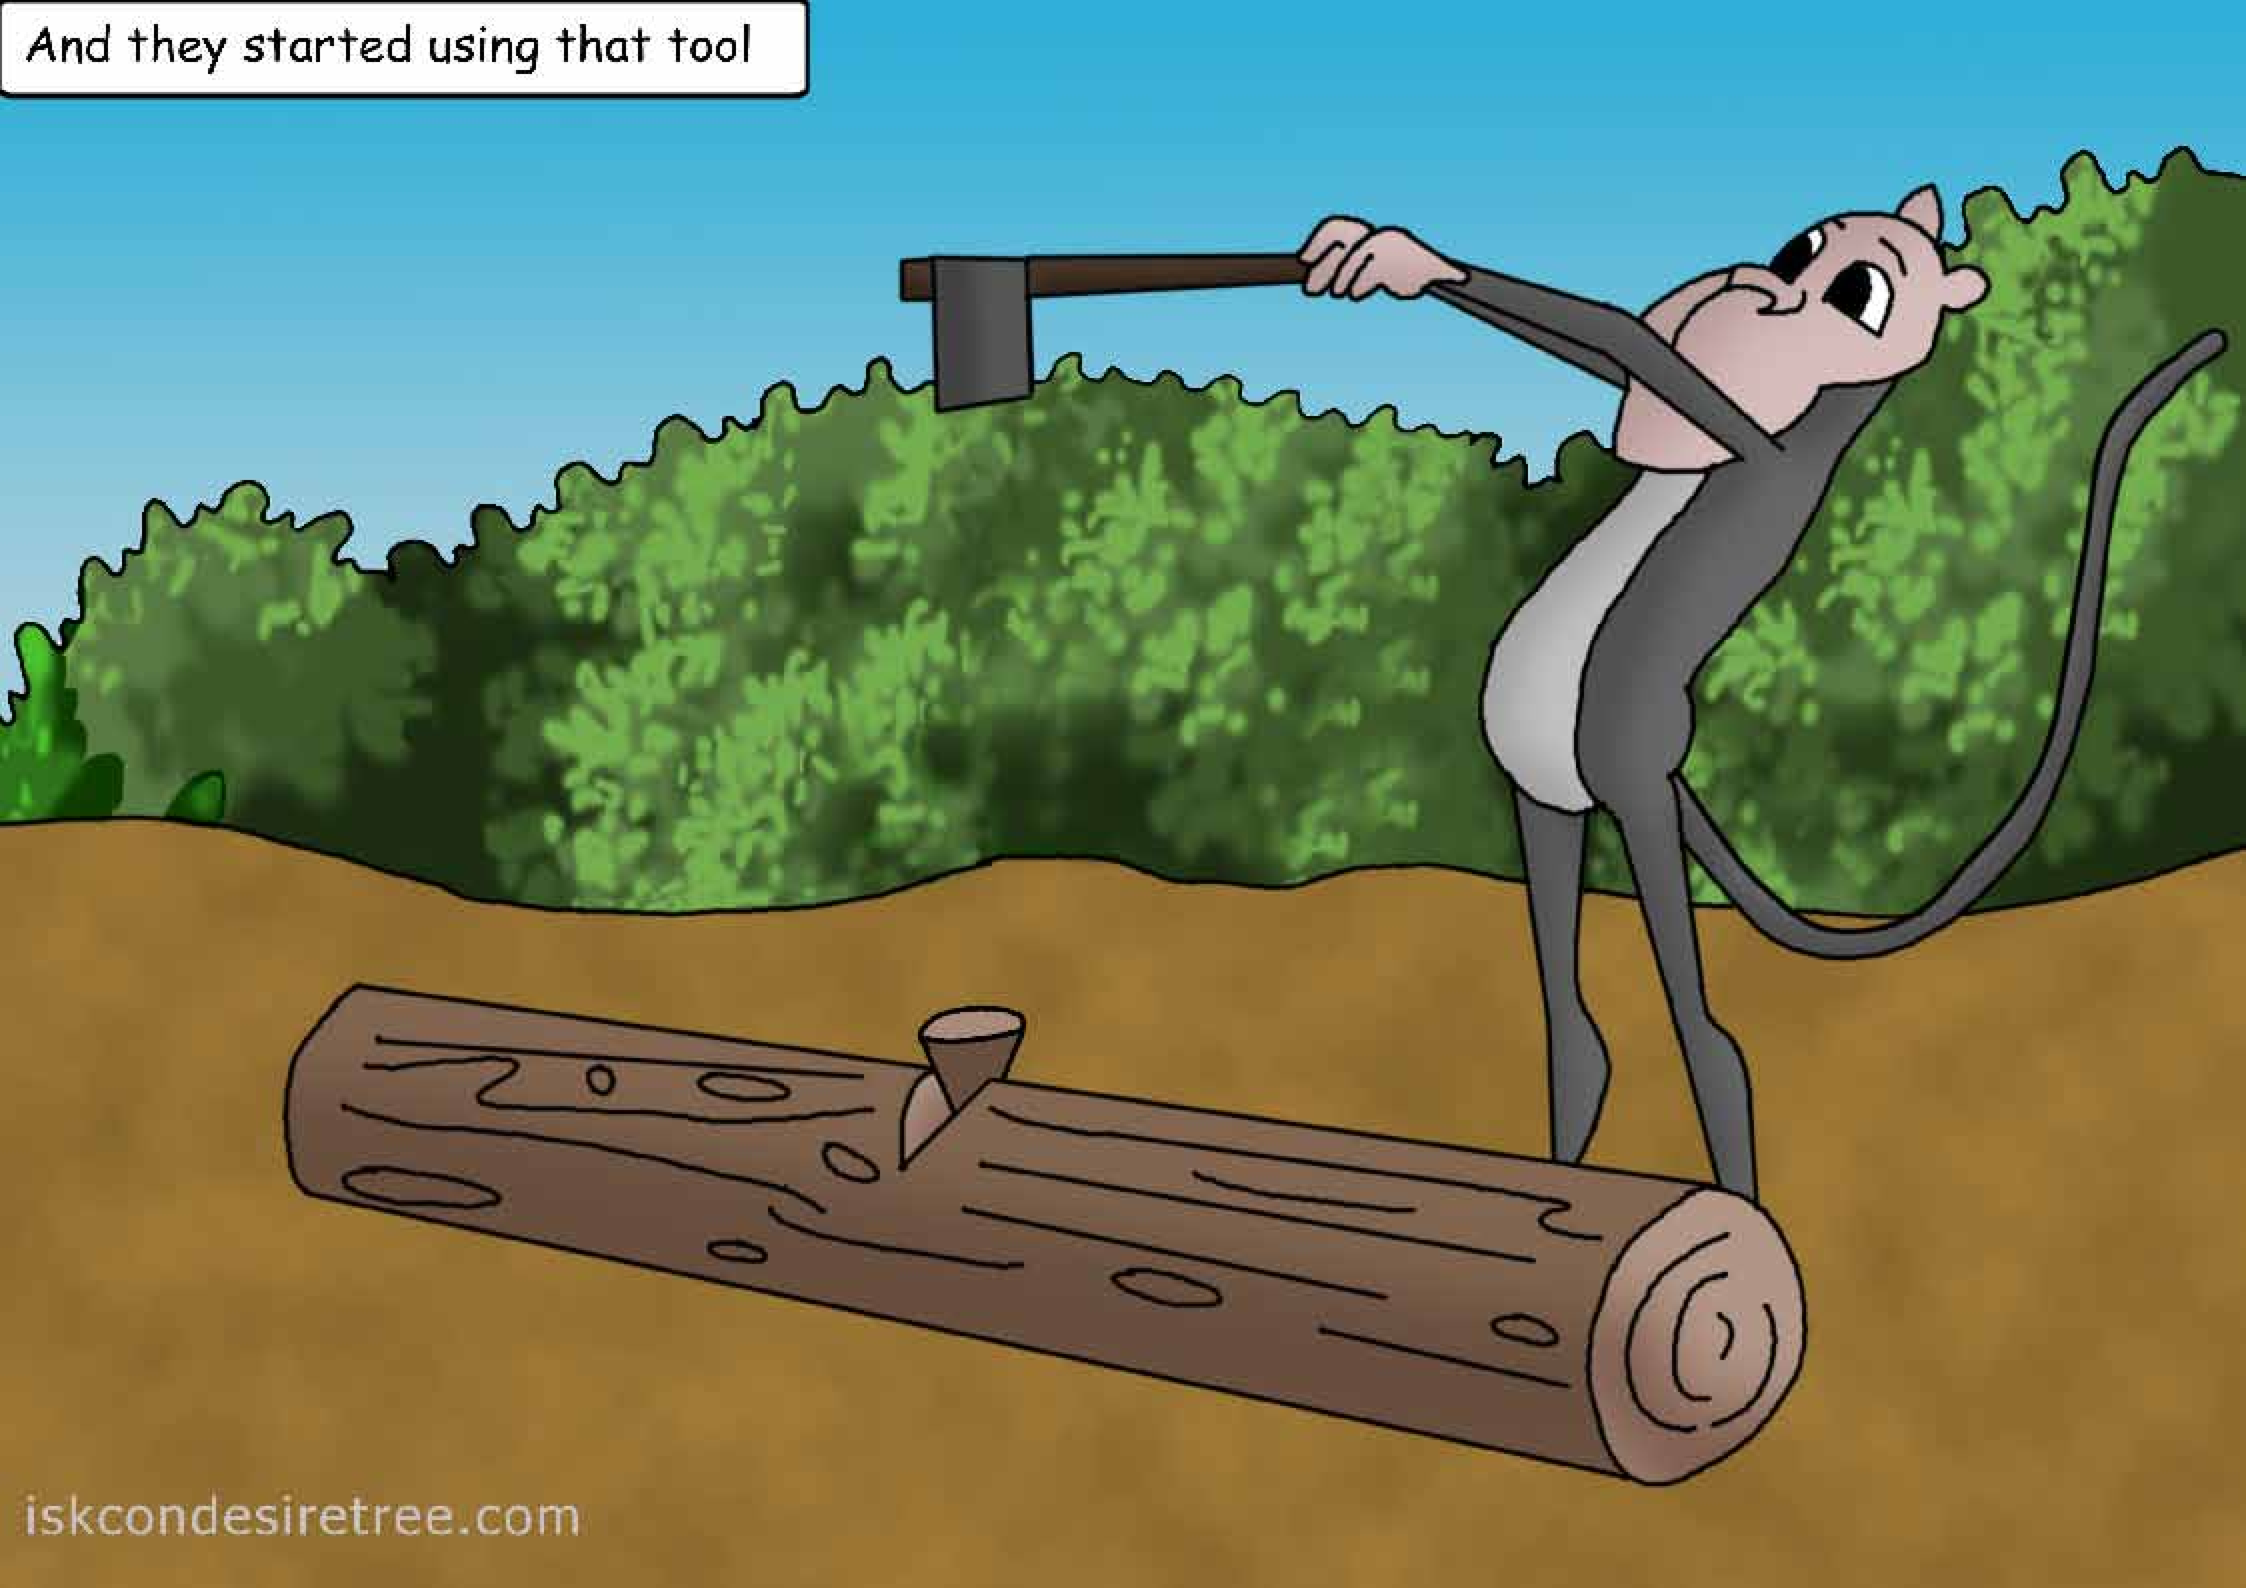

He gets an idea of putting a piece of wood in between so that the two parts will not join again

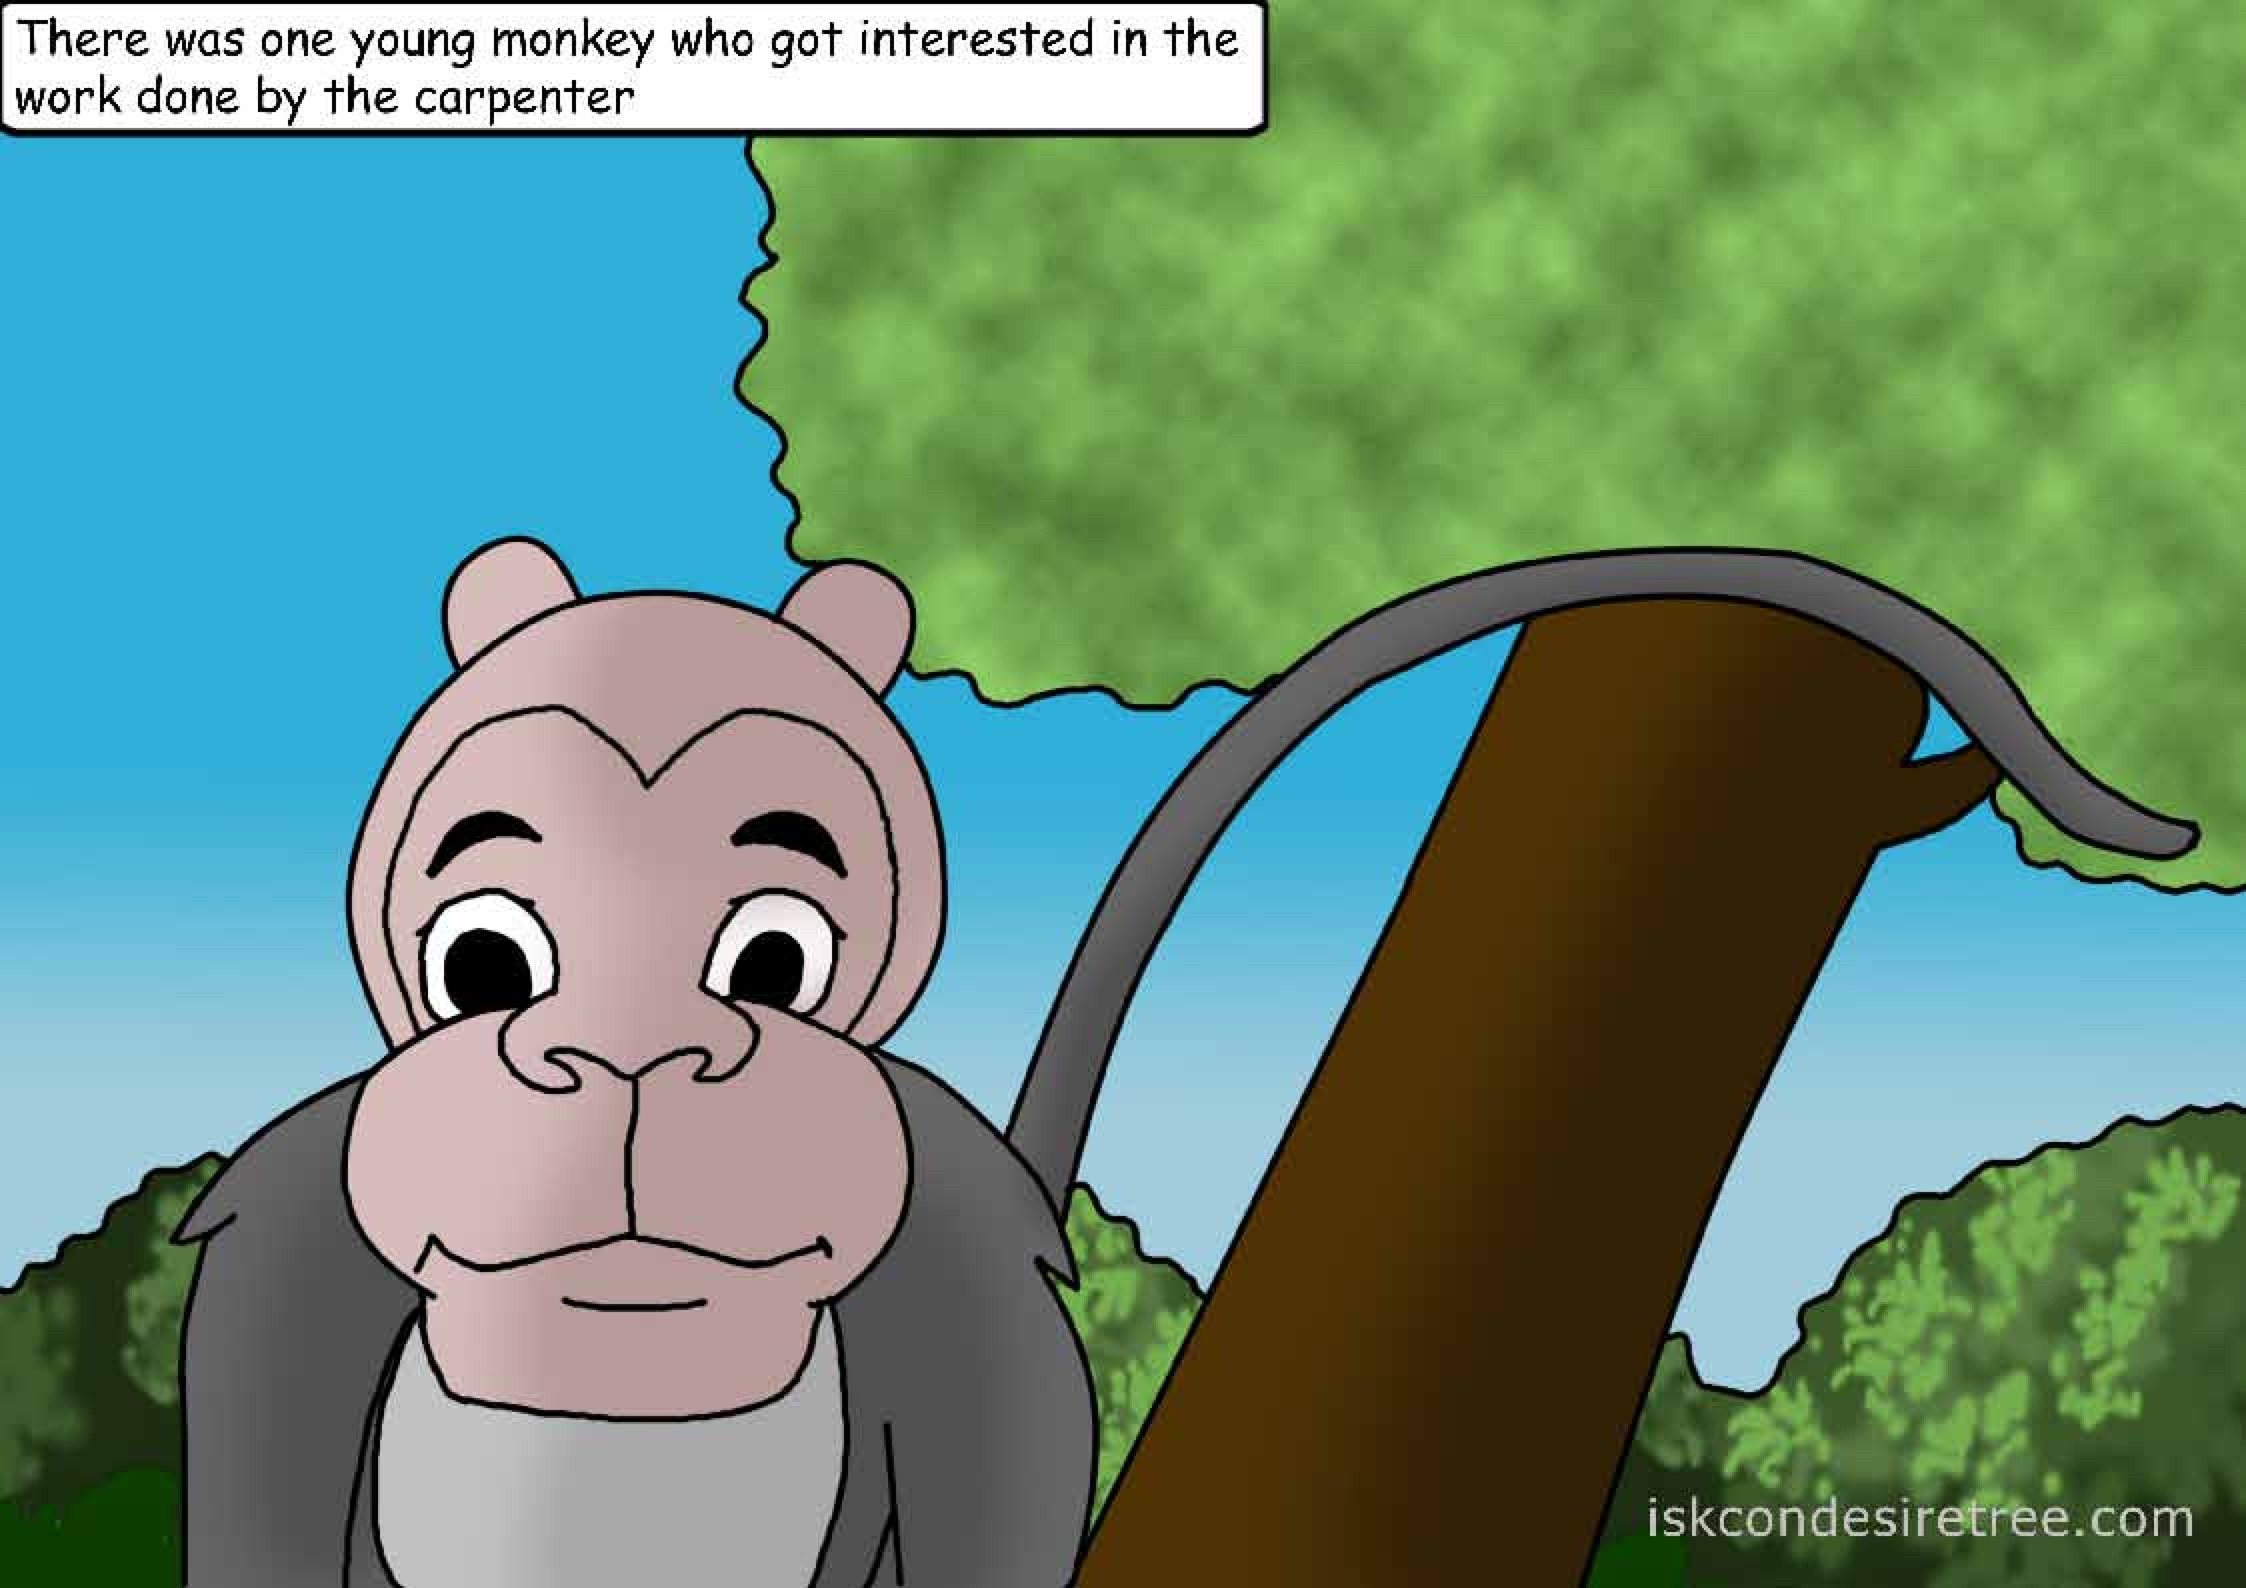

He starts hammering down the piece of wood in the middle of the two parts of the wood

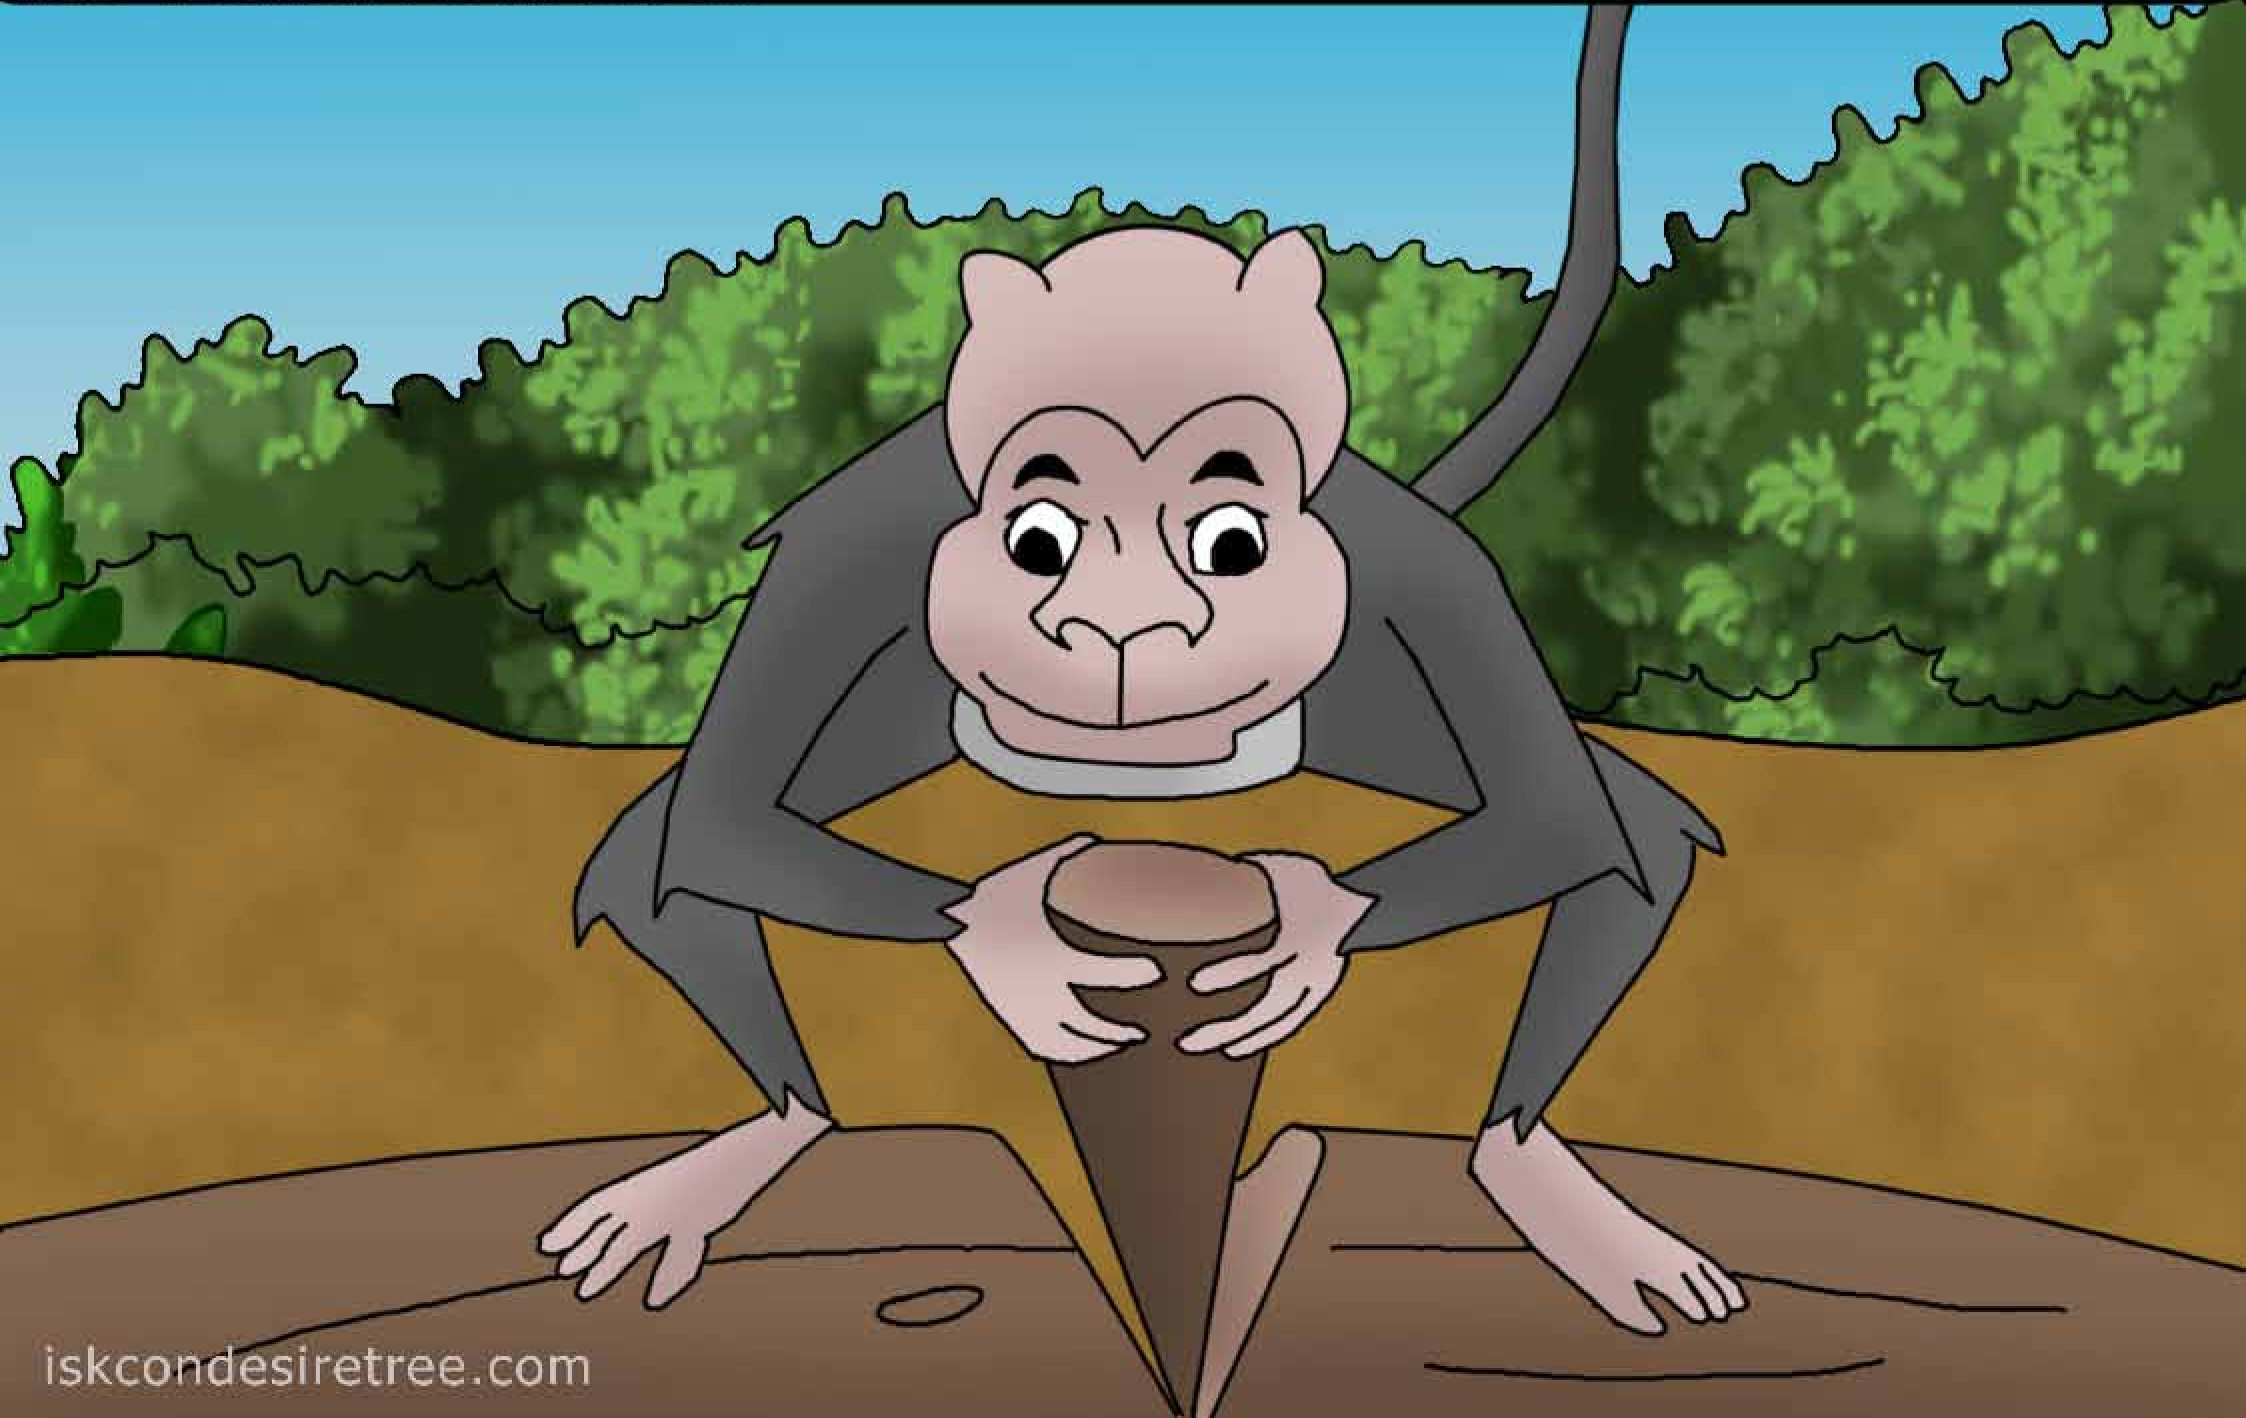

After some time group of naughty monkeys came to that place

They saw the tool of cutting the wood

And they started using that tool
iskcondesiretree.com

There was one young monkey who got interested in the work done by the carpenter
iskcondesiretree.com

On seeing the piece of wood in between the two parts, this young monkey thought that there must be something kept inside. And he gathered all his strength and started pulling out the piece of wood in between the two portions

After struggling for some time, the piece came out into the Monkey's hands but his tail got trap and the two portions of the log joined back
iskcondesiretree.com

The monkey started shouting
Help! Help! My tail, my tail has got trapped

MORAL :

If we have little or no knowledge at all about a work then we should not try that out.
